# Univ. of Colorado WiMAX – Dirk Grunwald

- Base-station:
    - Originally missing a couple of parts (power adapter)
    - Now functioning in lab
    - Moving server to "small PC" to simplify installation in chosen site.

- Client Issues:
    - USB Driver Win-XP only?
    - New device (211) is Linux & Windows, any experience?

- Installation was blocked on having full set up for our campus IT organization to approve
- Mounting process started now

- Propagation Models & measurement
    - Setting up Anritsu MS2721B with WiMAX demodulator
