GIMI Call 08/05/2013

On the call:
Jeanne, Marshall, Jack, Divya, Cong, Max, Antoine, Shu , Mike C., Mike Z.

- Path to GEC 18 (10/27 – 10/29):
    - Bi-weekly coding sprints? (Aligned with NICTA coding sprints?)
    - Ticket system worked well!
    - Stabilize current functionality and only add small amount of new features:
        - Stable version on emmy9
        - Experimental version on NICTA rack
        - LabWiki should be installed in gimiadmin and also run under this account
- Fix iRODS access in LabWiki
- Project versus Experiment
    - For now, experiment lives within GIMI
    - No use of iTickets, but groups and inheritance. Write up a use case.
        - Mike and Jeanne will write up use case and send to the group for review before next status meeting.
- Integration of Init script in web service
    - Better coordination with the portal.   Write up a use case.
        - Mike and Jeanne will write up use case and send to the group for review before next status meeting.
- Writing own scripts

Tickets to create:
- Install LabWiki in gimiadmin account and run it under this account (08/19)
- Upgrade to iRODS 3.3 (08/19)
- Make "+" sign in LabWiki work for iRODS.
