Project Team: TJ Giuli, Patrick Gossman, Xiangying Yang, Jing Zhu, Hongwei Zhang (lead)

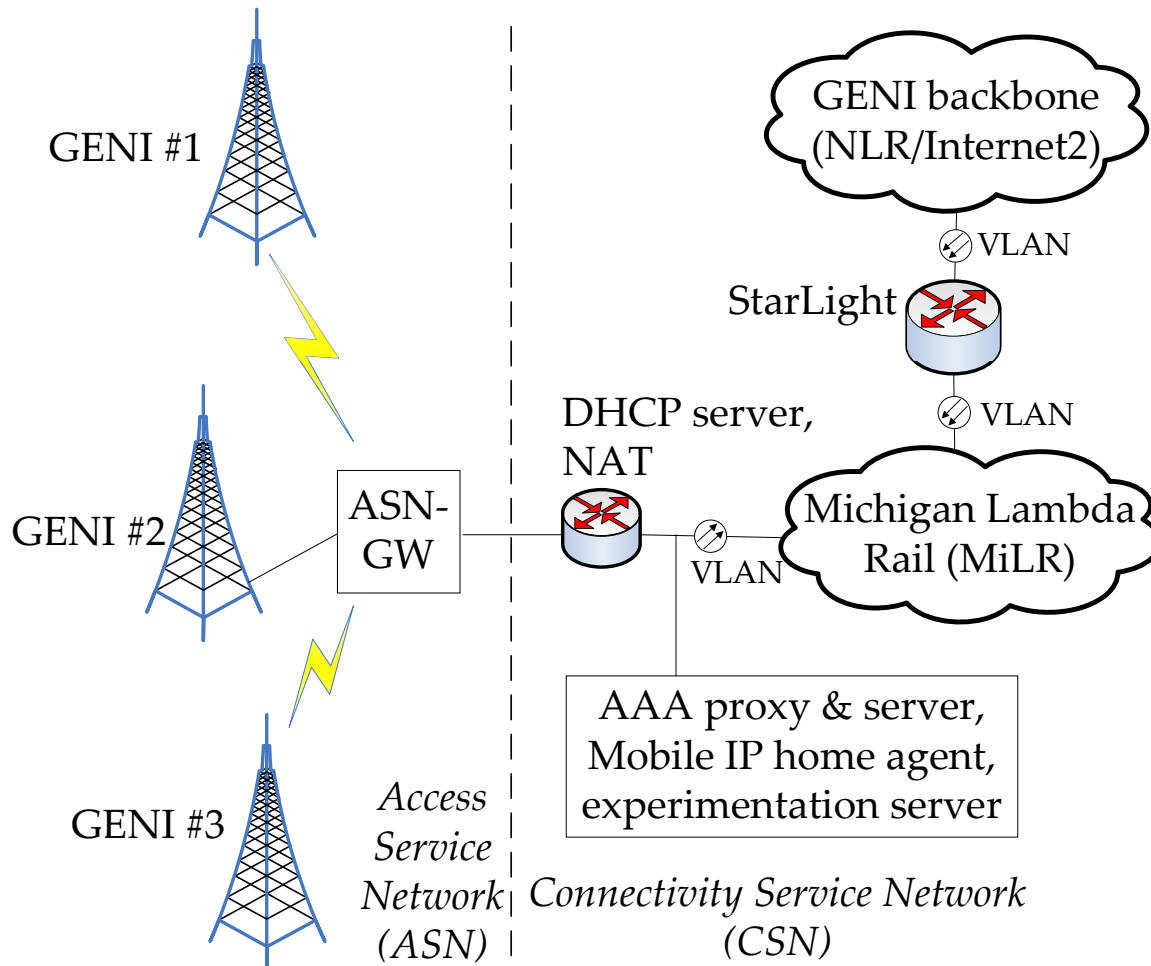

# Context of deployment

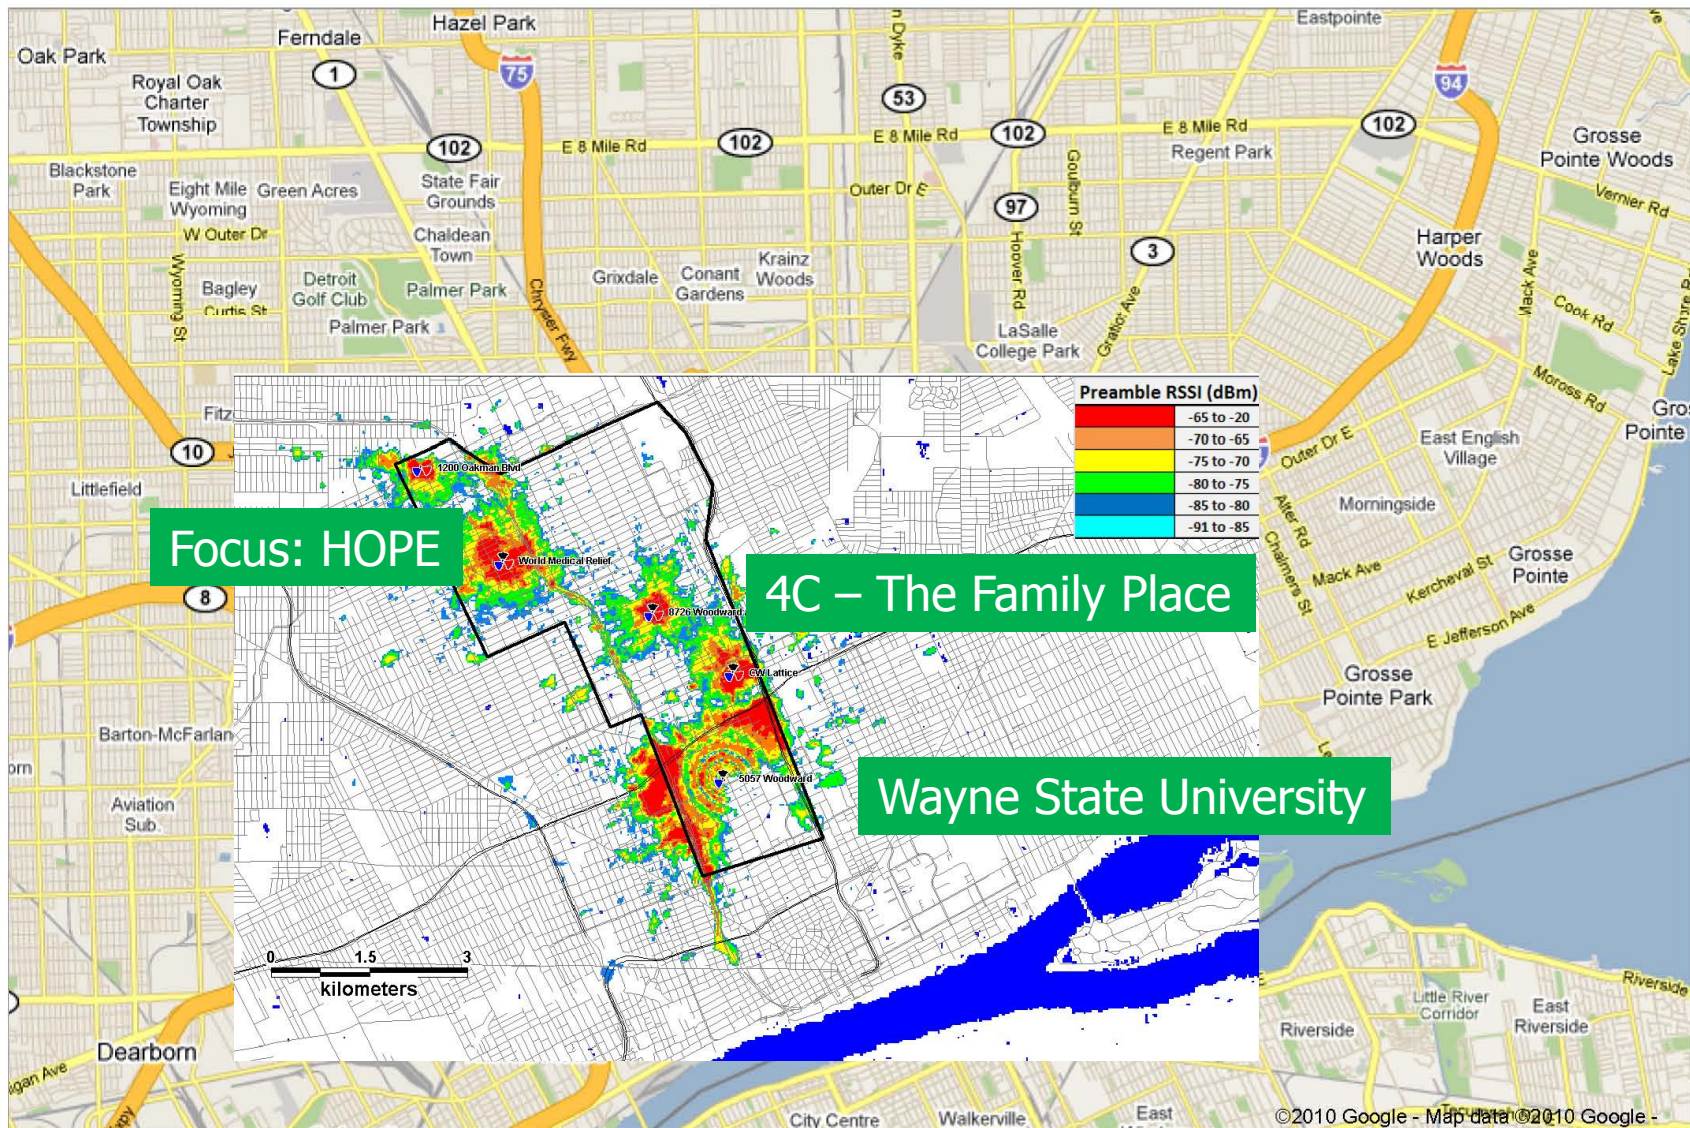

# Deployment option #1: CS/Maccabees building

# Deployment option #1: system architecture

# Deployment option #2 & extension plan

## Issues/challenges to be resolved

---

- 2.5GHz band range is used up in Detroit
  - Limited duration of spectrum loan from Clearwire
- 3.65 GHz operation
  - Typical coverage range?
  - Compatible client devices?
    - Intel 6250 supports 3.65GHz
- Installation cost?
